What People Are Saying About Heather's Presentations

A Talented Speaker, Professional Presence!

"Heather served as our keynote speaker on Friday, September 30, 2022, as she kicked off our Phi Theta Kappa Fall Leadership Conference. She exceeded my expectations, and I feel like she said things that were new and different from other speakers. She delivered the keynote presentation 'People, Passion, and Purpose'. The keynote was wonderful and connected perfectly to our conference theme.

Heather is a talented speaker, and her communication and presence were both very professional. Our conference attendees had only positive things to say about her presentation and many respondents scored her presentation as a 10 out of 10."

Adds that Little Something Extra!

"Heather did a presentation at our Fall 2021 Register in Probate Conference; she was the last presenter of our day. She did a fabulous job making everyone smile, laugh, and after a bit of coaxing even volunteer. She left everyone in an upbeat mood and gave us all something to think about. I would recommend her if you are looking to add that little something extra to your next conference or meeting."
